

2020 NYSRPS Exhibitor's Showcase

ACF Environmental

At ACF Environmental, we understand that every minute on a project means money. So, our team of geosynthetic experts focuses to solve your project challenges—from the first phone call to the last detail. We have a wide range of solutions from the best suppliers and a network of warehouses to deliver them when you want. Plus, ACF offers technical and job site support, and custom products if that's what is needed. We are in an industry that needs answers, not more questions. Getting the job finished quickly and effectively makes all the difference.

Alpha Youth Sports

Alpha Youth Sports provides services to youth organizations that use parent and other volunteer coaches, helping these organizations offer better programs to their community and achieve their stated mission. We pioneered the concept of a "Digital Coaching Platform", which addresses the #1 challenge youth organizations face: Recruiting and Preparing Volunteer Coaches. We offer a comprehensive software platform (CoachSpan) that simplifies and automates all of the core "coach processes", including coach recruiting, coach registration/paperwork, coach training, and more.

American Red Cross

Many jobs require up to date lifesaving skills because they address health emergencies every day – people such as health care providers, first responders, and lifeguards. Others, including teachers and babysitters, are entrusted with precious young lives that could require aid on a moment's notice. With a wide array of Lifeguarding, Caregiving and Babysitting, and Swimming and Water Safety courses the Red Cross can provide you with the training and skills you need to prevent, prepare for and respond to emergencies.

Advantage Sport & Fitness

Advantage Sport & Fitness provides professional fitness space design consultations and a premium selection of fitness equipment from the best brands in the industry. Since our company was founded in 1987, we've grown to be more than just a fitness equipment distributor – we are the full-service partner you can trust to create, install, maintain and support your fitness space. Our services range from initial facility planning (offering 2D floor plans, equipment selection consultation, and 3D visual renderings) to final delivery and installation.

BBS Architects, Landscape Architects and Engineers, PC

Architecture is created through an interactive process. At BBS, this process allows us to define the parameters of a project in terms of the expected end result as well as associated resources needed to reach it. As the facilitator of this collaborative, interactive approach, BBS is able to skillfully achieve success for any type of architectural project. It is our responsibility to understand the challenges that are placed before our clients. Our experience allows us to achieve solutions that are responsive, supportive, and fully functional.
